CONFIDENTIAL

DESCRIPTION OF ACCIDENT

(Brief narrative of accident. Include statement of responsibility and recommendations for action to prevent repetition)

1. In climbing thru the overcast in formation on the morning of 21 June 1944, B-26B45 AF No 42-95809 piloted by 2nd Lieutenant George A. Dewitt, got enough separated from the leader to cause loss of visual contact. In transferring from contact flying to instrument, instead of turning away from the formation as briefed, Lieutenant Dewitt allowed the plane to turn slightly toward the formation with the result that he crossed under the formation without seeing it. In attempting to establish his altitude he pulled up as he was crossing under the number two man and his left wing tip struck the right horizontal stabilizer assembly of the number two ship, B-26C45 AF No 42-107748, piloted by 1st Lieut. John W. Blute. Both planes remained under control though the damage to the empenage of Lieut. Blute's ship decided him to abandon his mission and return to base immediately. Lieut. Dewitt completed his mission.

- 2. There is no responsibility for the accident on the part of either the pilot or his aircraft.
- 3. There are no recommendations.

Signature John S. Samolymaidents Col AC
