DESCRIPTION OF ACCIDENT

(Brief narrative of accident. Include statement of responsibility and recommendations for action to prevent repetition)

1. Pilot was evidently endeavoring to let down under the overcast and then stay in contact while finding the landing field. The combination of blacked-out terrain, low ceilings, and poor visibility made it necessary to fly dangerously low in order to maintain contact. The airplane flew into the ground due to these conditions.

- 2. Cause: Accident resulted from weather, darkness, and blacked-out terrain.
- 3. Recommendations: None.
